

What is Mobile Conferencing?

FreeConference Mobile provides immediate access to everything you'll need to start conferencing, conveniently and easily. It's no longer necessary to remember your dial-in number or access codes to initiate a call. FreeConference Mobile allows you to collaborate in seconds with just a tap.

Mobile Conference:

View the date and time of your next mobile conference. You can enter your conference up to 5 mins prior to the scheduled start time.

Quick Call:

Initiate your conference call on-the-fly with one button.

Mobile Conferencing Features

- Log in with your existing FreeConference account, or sign up for a new account within the app
- Schedule conferences with ease using the contacts on your phone
- Send invitations via email or text message
- Save conferences to your phone's calendar
- Conference call alerts with one touch dial-in
- Listen to conference recordings from the History tab
- Set your default dial-in number and invitation method from the Settings screen

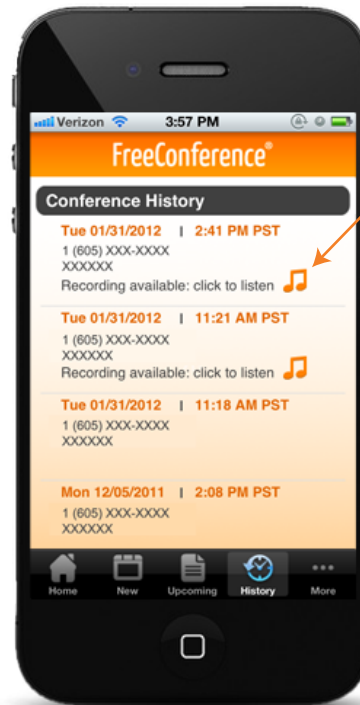

Conferencing at Your Fingertips

-  **Home:**
View or schedule your next mobile conference, or start one on-the-fly.
-  **New:**
Schedule your next mobile conference.
-  **Upcoming:**
View upcoming mobile conferences. You can edit a conference or use the "Copy" button to quickly duplicate a conference.
-  **History:**
View previous conferences and listen to conference recordings.

Device Requirements

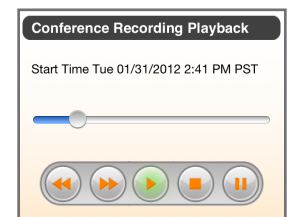

The FreeConference Mobile App requires iPhone iOS version 5.0 or later, Android OS version 2.2 or later, or Windows Phone 7.5 or later.

Conference Recording:

Access your recording about 1 hr after your conference ends.

The recording is active for thirty days, after which all copies are deleted from our servers.
